STATEMENT OF SUBSTANCE OF INTERVIEW

Mail Stop AF
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The statements made in the Interview Summary dated January 8, 2007 are essentially correct. During that telephone call, Examiner Stevens pointed out that the dependent claims in the after-final reply had their scope changed, but that the incorporation of the features of dependent claim 2 into independent claim 1, along with the cancellation of the other dependent claims that depend from claim 1 (e.g., claims 10-12), would be entered for purposes of appeal.

REMARKS

This Amendment should be entered for appeal, since: a) it is believed to place this application in condition for allowance without raising any new issues via claim amendments that would require further consideration and/or search (since the only amendments to the claims are to place dependent claim features into the respective base claims, and canceling all of the other dependent claims).

Based on a telephone call from Applicant's representative to Examiner Stevens on January 8, 2007, Examiner Stevens stated if the dependent claims that were not canceled in the after-final reply filed on December 4, 2006 would be canceled, along with including the amendments to the independent claims as made in that after-final reply, then such an amendment would be entered for purposes of appeal.

This amendment does exactly that, and thus should be entered for appeal.
